Recommendations

The Faculty Affairs subcommittee would like to recommend to the Implementation Committee, that Dr. G.T. Lineberry, Vice Provost, Office of Faculty Advancement be invited to serve as a consultant to the faculty affairs subcommittee. In his role at the university, he provides significant assistance in the recruitment and appointment process for faculty of all title series. He has intimate knowledge of the Administrative and Governing Regulations.

The Faculty Affairs subcommittee considers the charge for the subcommittee is too broad and the scope of work is enough to warrant two subcommittees. Therefore, the Faculty Affairs subcommittee would like to recommend that our subcommittee be divided into 2 subcommittees with each subcommittee focused on different aspects related to faculty issues: 1) Faculty Affairs Subcommittee 1 would focus on issues related to the appointment/hiring processes while 2) Faculty Development Subcommittee 2 focus on issues related to faculty development, (i.e. teaching, evaluation, etc.)

The Faculty Affairs subcommittee will need to determine, based on involvement of other subcommittees, the faculty needs in the remote locations. For example, number of clinicians and basic science faculty needed. Then the Faculty Affairs subcommittee can determine what the next steps are to move forward.
